End of Year Message from Chairperson Board of Directors

> *Thanks to your generosity, dedication and belief to our cause, we have been able to make a tangible difference in the lives of many.*

Dear friends, supporters and partners,
As we come to the close of another year, I want to take a moment to reflect on the journey we have shared and express my heartfelt gratitude for your unwavering support.

This year has been filled with both challenges and triumphs, but through it all, our mission to serve and uplift those in need has remained steadfast. Thanks to your generosity, dedication and believe to our cause, we have been able to make a tangible difference in the lives of many. Whether through direct assistance, community programs or advocacy efforts, every action we taken together has brought hope and transformation.

I extend my deepest appreciation to our volunteers, donors, staff and board members who have worked tirelessly to make our initiatives a success. Your compassion and commitment continue to inspire and fuel our efforts.

As we step into a new year, let us renew our commitment to kindness, service and impact. There is still much work to be done and with your continued support, I am confident that we can achieve even greater milestones.

Wishing you and your loved ones a joyful holiday season and a prosperous New Year. May the coming new year bring us all renewed strength and opportunities to touch more lives.

With gratitude and Best wishes,

Mrs. Juliet Kavuma Nassolo
Chairperson Board of Directors
Peace Transitional Home

END OF YEAR MESSAGE
FROM EXECUTIVE DIRECTOR

"This year has been the testament to the power of love, kindness and community."

Dear Friends,
Supporters and
Well-wishers,
As we reach the end of another year, I want to take a moment to reflect on the incredible journey we have shared and express my deepest gratitude to each one of you

This year has been the testament to the power of love, kindness and community. Through your generosity, we have provided our children with not only food, shelter and education but also hope, joy and a sense of belonging. Your unwavering support has given them the chance to dream, grow and believe in a brighter future.

To our dedicated staff and caregivers, thank you for your tireless commitment and compassion. Your love and dedication create a nurturing home where our children feel safe and valued. To our Donors, volunteers and partners, your contributions big and small have made a world of difference. Every meal, book, and your word of encouragement has helped shape the lives of these young souls.

As we welcome a new year, let us continue this journey of love and service. There is still so much to do and together we can ensure that every child in our care has the opportunity to thrive.

Wishing you all a joyful holiday season and a New Year filled with blessings, happiness and prosperity. Thank you for being part of our family.

With heartfelt gratitude,

Ms. Nkinzi Aidah
Director, Peace Transitional Home.

Background of Peace Transitional Home

Introduction

This report gives a review of Peace Transitional Home (PETH) activities implemented since January-December 2024: achievements, challenges encountered during implementation, recommendations, lessons learnt, conclusion and appreciation.

PETH is an NGO registered by number MIA/NB/2013/11/3391 and operates as an approved Children's Home file No MGLDS/AC/159 whose vision is ***"Ensuring the appropriate welfare and education of disadvantaged children"***. With a mission of accepting, acknowledging, collecting, supporting, caring and providing for the needs of abandoned, rejected, stranded, abused and destitute children in any part of Uganda. The organization was founded in July 2013. We made 11 years of serving children this July.

Objectives of PETH

MAIN OBJECTIVE

PETH aims to serve children in various forms such as orphans, abused, abandoned and destitute by supporting vulnerable families. This is done with the aim of creating a better environment in which children can thrive.

SPECIFIC OBJECTIVES

- *To provide shelter, medical care, education, food and clothing for children and young people.*
- *To raise and nurture these children with parental love and care in harmony with the biblical and Christian principles of love and compassion.*
- *To facilitate and support these children to be placed in the care of Foster parents and properly adopted.*
- *To empower families to support their children.*
- *To train, educate and enable these children to have good knowledge, values and craft skills.*

Accomplishment and Impact of Different PETH Projects and Activities

The table below presents activities and projects carried out since January to date as well as their achievements and significant impacts on the lives of vulnerable children and their families.

ACTIVITIES	ACCOMPLISHMENTS	SIGNIFICANT CHANGE
Shelter	Provided shelter to 35 beneficiaries	Housing for the children improved and they had what they would refer to as a home.
Medical	35 children received medical treatment.	Improved health status of children particularly those whose guardians would not at all afford treatment costs.
Education	15 beneficiaries received education.	Children have learned how to read and write
Home Visits	7 homes were visited to find out the living conditions of our children.	It kept and improved relationship between PETH, children and the parents.
Follow-ups	10 follow-ups were carried out to find out how our children were copying with life.	It kept a good relationship between PETH, children and the parents.
Re-unions	Seven children were reunited with their loved ones.	Joy was restored in the families the children were re-integrated.
PROGRAMS		
Farming	We carried out farming projects.	Food supplements were ascertained and nutrition was improved for the home.
Family support	2 families were supported	Improved living conditions for the families.
Women Empowerment	It's in the process	
Art and Craft	Still in the process	

Funding of Activities and Projects

PETH is grateful for the support that our entire stakeholder's gave us and sincerely, we carried out the different activities and projects to some extent as a result of the support. Coherently, for any form of support towards the organization's activities or projects, PETH requests and allows any State(s), Organization(s) or Individual(s) to make a big difference in the lives of vulnerable children and their families

How to Support PETH Activities and Projects

Supporting the work of PETH can be achieved in various ways for example; you can pray for the organization (PETH), donate money, donate items, or volunteer directly. More to that, one can volunteer by participating in activities on the organization's website or in one's respective country using essential skills such as contributing to PETH website improvement, raising funds, revising our documents and many more.

For financial assistance, anybody can support PETH directly or through our partners in the United States that exempts your contributions to tax.

Psychological Support and Basic Care

Child Protection and Legal Support

Children served

We are pleased to report that since January-December, we managed to serve 35 children. 9 of them were females and 26 were boys. It is worth noticing that 26 of the children were admitted in previous years through the Offices of Probation and Social Welfare in the districts of Luweero, Kampala, Wakiso and Gomba. The total number of children accommodated now is 26.

Children admitted by PETH, Jan-Dec 2024

A total of 9 children (4 female and 5 males) were admitted by PETH from 3 districts: Luweero, Nakasongola, and Gomba. This was done through the Child and Family Protection Unit and Probation and Social Welfare Officer(s) of the said districts. The victims were a result of neglect, abuse, incest desertion or abandonment. Refer to summary statistics in the table on page 09.

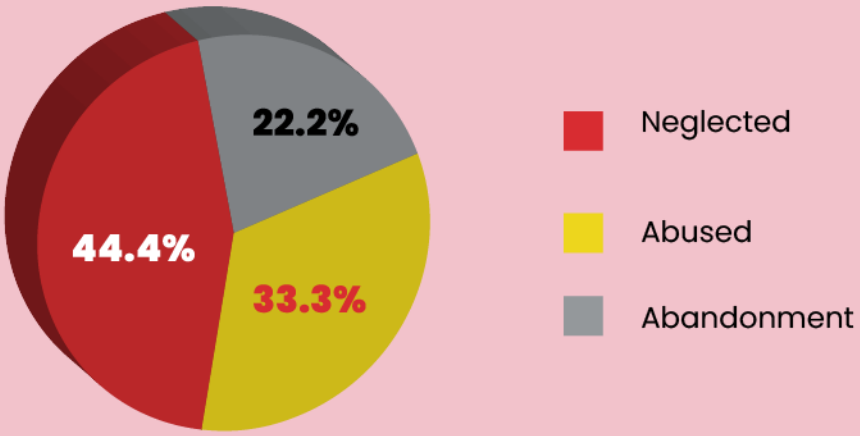

Children on the Program by Reason for Enrollment

S/No.	Reason for enrollment	Frequency	Valid Percentage
1	Abandonment	2	22.22%
2	Abused	3	33.33%
3	Neglected	4	44.44%
4	Incest	0	0%
5	Missing	0	0%
	Total	09	100%

Visualizing the statistics in the above table, it can clearly be deduced from the chart below that most of the children who enrolled were as a result of neglect and abuse scoring at 44.44% and 33.33% respectively. Abandonment accounted for 22.22% of the children enrolled.

Children on the Program by % Reason For Enrollment

Overview for Some of Our Beneficiaries

ABAHO DAVID

Arrival | Current 01

- We received Abaho David on 15/02/2024 and was estimated to be 2 years old.
- He was abandoned by his biological mother Sulayinah to his father Alinaitwe Innocent.
- Alinaitwe has a physical disability, he can't move well unless uses a stick to support him. All this happened in Kirasi village, Degeya parish, Kigezi Sub county Gombe district.
- Alinaitwe used to leave David alone at home in order to look for a survival until late night.
- A good Samaritan reported the case to the probation office Gombo district and the child was referred to Peace Transitional Home by the Luweero district Probation and Welfare officer for safe custody.

KAKOOGE DAVID CORINTHIAN

Arrival | Current 02

- Corinthian was born a premature (months) by his mental ill mother who couldn't take care of him, the husband was not known and the relatives of the mother were also not known, the mother was staying alone without food to eat.
- A good smaritian saw the child when he was going to die and reported the case to the local authorities which reported to senior probation officer Nakasongola district who forwarded the child to PETH for safe custody.

GOMUSHABE ALLEN

Arrival | Current 03

- Allen 1 ½ years, was brought to PETH after her mother being murdered by her boyfriend in Vumba LC.1- Luweero District.
- The mother was murdered at the night of 20/04/2024 in Vumba LC.1, Butuntumula SubCounty – Luweero District.
- The mother (late) had visited her boyfriend together with her child she produced from another man.
- The man was arrested after poisoning him self and the deceased was burried in Bugiri leaving her child with a good samaritian who reported the case to Luweero Police station.
- Through the Senior Probation Officer Luweero District the child was referred to PETH for care and Protection on 25/04/2024.

MUSINZA EMILY PRAISE

Arrival | Current 04

- Praise was abandoned by her mental ill mother on someones verandah in Kabunyata Trading Center, Kamira T/Council –Luweero district on 14/05/2024.
- A good samaritian rescued the child and reported to one of the Para-Social workers in the area.
- The Para-Social worker later reported the case to Kamira Police Station.
- Through the Senior Prabation Officer Luweero District the child was reffered to Peace Transitional Home for safe Custody on the 17/05/2024.

PETH
Caring for the Future

TASHOBYA ETHAN

Arrival | Current

05

- Ethan was abandoned by his mother to the grandmother.
- Who can't take care of him and it was hard for her to get a survival.
- His father died and immediately after burial the mother abandoned him.
- The grandmother used to work in piggery farm leaving Ethan alone at home.
- All this happened in Maddu Sub-County in Ddegeya parish of Katanze village –Gomba district
- A concerned person reported to the Probation Office Gombe district which referred the child to PETH for emergency care and protection.

KITIIBWA MIRACLE

Arrival | Current

06

- Miracle is two years old. He was abandoned to the step grandparents in Kyepukulu village. The grandparents tortured him so much without giving him food, love and care.
- Miracle was found covered with wounds and scares allover his body. Miracle was found with severe cough, flu and severe malnutrition with infection in his body.
- The father is not known and the relatives of the mother are also not known.
- The residents saw the child when he was going to die and reported the case to the local authorities which reported to senior probation officer Luweero district. Later the child was forwarded to PETH for safe custody.

NELIMA WITNEY

Arrival | Current

07

- Witney is three years old. She was reffered to PETH by Luweero family court on the 24/10/2024.
- After having suffered grevious harm from being burnt by the paternal Aunt. The Aunt is under custody at Butuntumula prison.
- Witney has a big wound on her head which is healing now.
- A temporary care order will be granted by court.

NABUUMA GIFT

Arrival | Current

08

- Gift is 4 years old. She was reffered to PETH by Probation and social walfera Luweero District on the 28/10/2024.
- Gift was abandoned by Nakalyango and Sempijja when she very sick to the grandmother. Gift's health condition was worrying but the mother left her in one of the house room without informing the grandmother.
- The grandmother reported the case to Kikyusa police station and the police refered her to to the probation office in Luweero with the sick child. Gift was reffered to Luweero hospital and has been attending to the same hospital for checks and follow up.
- Recently a group of relatives were hunting the child down in relation a cultural ritual that is against the child's wellbeing and survival. The child was refffered to PETH by probation and social walfare Luweero district for safe custody.

MUBEEZI CALEB

Arrival | Current

09

- Caleb is 1 year old. He was reffered to PETH by Senior probation and social walfare Luweero district on 27/10/2024.
- Caleb was abandoned by unknown person at Kasan referal hospital.
- The child was referred to Peace Transitional Home for protection and safe custody.
- After receiving the child, at PETH he was put on treatment for flu and cough because he had severe flu & cough.

Reunion

At PETH, we believe that the family should be the first source of response before a child is brought to us for respite care. However, sometimes it is difficult for these children to stay with their families due to different circumstances. Here are some of the children who were reunited with their families since January to December.

NSUBUGA EMMANUEL

Nsubuga Emmanuel. On 16th/0ctober/2023, we went back where Nsubuga was abandoned by his parents at 1 ½ years. The Landlady gave us the grandparent's contacts. On the same day a home visit was done to Nsubuga's Grandparents in Kikunyi LC.1, Bamugolodde parish, Butuntumula Sub County – Luweero district to check on the situation of the family. We found both grand's and they were looking for the way of getting their grandson into their care. Both parents are farmer, have two cows at home, the grandpa is one chief security guard at one of the secondary schools in Luweero district. The biological parents are in vein. They have four children at home including one granddaughter. Their economic situation was able to take care of Nsubuga Emmanuel.

On the 15th /May /2024 Nsubuga Emmanuel was re-united with the grandparents, he was 3 years old, in baby class and in very good health condition.

GOMUSHABE ALLEN

Allen was left alone after her mother being killed by the step father on 20th /April 2024 at Vumba Lc.1, Butuntumula Sub County in Luweero district. A good samaritian rescued Allen and took her to Luweero police station where she was reffered to PETH by the senior probation officer Luweero district on 25th/04/2024. After the burial of her mother in Namutumba district the family of the deceaed decided to take care of their granddaughter. Through Luweero police station and the senior probation officer Luweero district, the child was re-united with the grandparents on 14th/May/2024.

NAMUGENY ROVIN

We received Rovin on the 24th /July /2023 after being neglected by her mother Namuli Hajara. She used to lock her inside the house, without food, care and medication. Yet, she was HIV Positive. The girl was rescued by the neighbors who reported to Bugema police station and the child was forwarded to PETH through the probation officer Luweeero district.

Immediately after receiving Rovin, she was admitted at Mulago hospital (Mwana Mugim) for health rehabilitation for one month. After some months, the biological father and grandmother received information about Rovin and they decided to look for her. They kept on visiting Rovin several times while in our care.

After almost a year, they requested us to give Rovin back into their care since they can take a good care of her. We visited the family (Grandmother) and we realized that she can take a good care of Rovin together with the biological father. We re-united Rovin with the grandmother and the biological father on the 29th/6/2024 at Kikunyu village, Bamugolodde parish, Butuntumula Sub-County –Luweero district. When she was 3 years old and in a very good health condition.

KIMERA EDRINE

Edrine was brought to PETH from Kiddukulu village Makulubita Parish, Luweero district through the Probation & Senior welfare Luweero district on the 10/11/2022. Her mother abandoned him to the relatives who also abandoned him to the neighborhood. The neighbors had 9 children in one room. Edrine was found with severe cough, swollen body due coldness and lack of care. On the 17th/October /2024 we re-united Kimera Edrine with her mother Nakiwala Alice who is now well and able to take care of her child.

JOSELYN AND JOVIA

These twins were abandoned by their father in a rented house in Kawaala Zone 1 after the death of their mother Bisirikirwa Kevin.

Arrival

Current

The case was reported at Kawaala police station and later the children were referred to PETH by the Probation and Social welfare Kampala Central division on the 22/8/2022. These children were re-united with family on the 9th/November/2024.

KABUYE FRED

Fred was rescued by the area councilor who reported the case to Luweero Central Police Station on the 25/5/2023. Fred was abandoned by his biological mother to a poor grandmother who couldn't afford to support him.

After the failure of the grandmother to provide for him, she also abandoned Fred to the stepbrother where he was mistreated without giving him love, care and all the basic needs. Fred was found abandoned at the rubbish pit full of feces all over his body, severely malnourished, with many scars and fresh wounds plus severe cough and flu.

He was referred to Peace Transitional Home by the Luweero district probation and welfare officer for safe custody. On the 11/12/2024 Fred was re-united with family in Ngogolo Trading centre L.C.1 Butuntumula sub county, Luweero district.

Current number of children

Currently the Home accommodates 26 children, 5 being females and 21 males. These also includes those that we had in the previous year of 2023.

PROJECTS

With support from different individuals like you, we have been able to work upon different projects for our children's welfare.

School Project

- *Donation from our partners Aunt Susan and Uncle Trent Dyer*

At the beginning of the year 2024, we received a donation of $ 2000 to be used to complete the class room. The money was used to buy the ***windows, doors, glasses, making the ceiling for the classroom plus painting both the class and the store.*** Without their support from Aunt Susan and Uncle Trent our children would not be able to study due to luck of a class room. Because of their support 7 children from the community also managed to acquire education.

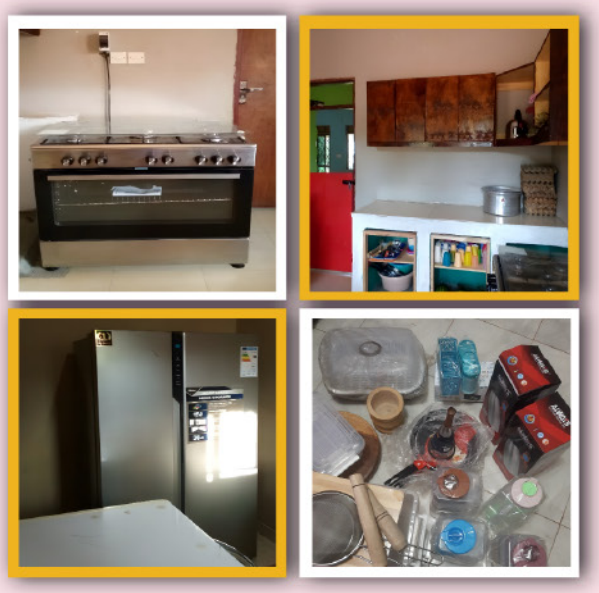

This has enabled us to get enough space for our food, clothes and many other items within the organization.

- *Donation from our own partner Aunt Sandra Perez*

A total of 10,153.149/= (Ten million, one hundred fifty three thousand, one hundred forty nine shillings) donation from Aunt Sandra was used to quire ***school uniforms, staff uniforms and sport wears for the children, socks.*** The baby class room got a ***carpet, a teachers' chair and table.*** The children and the teachers look well-dressed now.

This has made learning to be comfortable, since we have an organized class for them and their teachers. And also many other items were bought for the children, like food, class materials, medicine, and salary for March was also covered. We thank her efforts and her fundraising campaigns towards the wellbeing of these children!

Home Improvement

- *Donation of a Cooker and a Fridge and Renovation of inside kitchen by Aunt Susan and Uncle Trent Dyer*

Our own partners again donated $3000 for the kitchen cabinets and for buying all kiten utensils needed by our cooks for examples, ***cooker, saucepans, frying pans, flasks, gas clylinders, plates, cups, pressure cooker,*** etc. without their support we would still living in stone age. With their help children can now eat well, eat in time, well cooked food. Staff member have some time to rest. A door was added which separates the dining room from the kitchen

We heartfully appreciate Aunt Susan and Trent Dyer for that generous donation. This has made cooking easy, so that the children can eat in time. In addition, preservation of children's food , juice and sauce has also been simplified for us.

- *Plastering of our fence Donation from Our partner Aunt Sandra Perez from Spain*

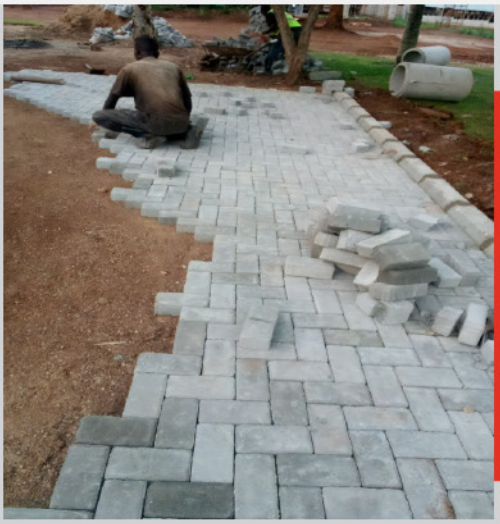

With the donation of |$ 1090 from our partner anunt Sandra Perez during the fourth quarter, the fence construction and plasting activity was started which has made the home safer and provides security for the children. This will ensure that there are no cases of escape from the home, neither intruders coming in to harm the children or steal.

Livestock

There has been consistent improvement in the care of animals at PETH by feeding them well, vaccinating them timely, cleaning their Kraal etc. This has improved their health and also increased the quantity of Milk produced compared to the beginning of the year. All the animals were in good conditions.

A new calf was added on to our flock and on a sad note one of our big cow died which made a set back to reduce on the quantity of milk for the chilfren. The the big one which remained played a very big role in the diet of the children, especially the malnourished and newly received babies, now have access to the much needed milk.

Paving infront of the main house

This donation was raised during christmas season, a total of seven million ugandan shillings (7,000,000) from well wishers from Greece and uganda.

This reduced on the problem of mudness and flooding of water during rainy season.

Trenching of our Road from the Main Road up to the Gate

Part of our road had been afffected by soil erosion making it smaller and impossable, especially during rainy season. This was achieved through your continueous support to PETH.

Without you we wouldn't have been able to do this!

Health

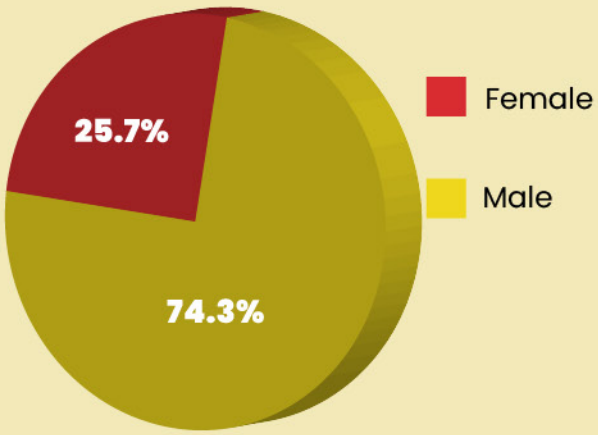

It is not easy to maintain the health and liveliness of children. Management goes through a lot to travel long distances to see a pediatrician. Peace Transition Home got a nurse on site to improve children's health, to ensure that their medical problems are treated quickly, and to closely monitor sick children.

Children that fell sick in 2024

S/No.	Gender	Frequency	Valid Percentage
1	Male	26	74.3
2	Female	9	25.7
	Total	35	100

From the above table, A total of 35 children fell sick in 2024. 74.3% of those that fell sick were males compared to 25.7% females .The big ratio is as a result of the big number of boys admitted than the girls. The above statistics can diagrammatically be illustrated below;

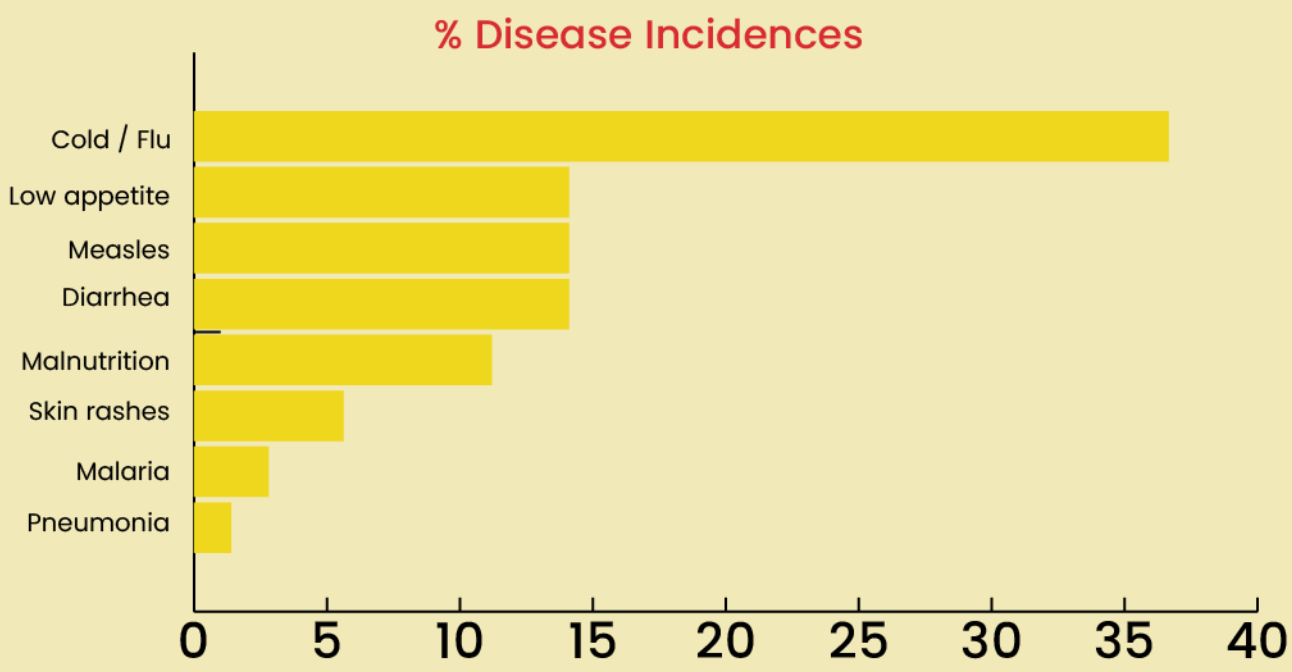

Children that fell sick by gender proportions

Diseases by Incidence

S/No.	Disease	Incidence of Disease	Valid Percentage
1	Malaria	2	2.81
2	Cold / Flu	26	36.66
3	Skin rashes	4	5.63
4	Pneumonia	1	1.4
5	Low appetite	10	14.1
6	Diarrhea	10	14.1
7	Malnutrition	8	11.2
8	Measles	10	14.1
	Total	71	100

Based on the above statistics for disease by incidence, we observe that most children suffered from cold/flu being 26. This was followed by malnutrition at 8, low appetite, Diarrhea & Measles were 10. Those that were reported to have skin rush 4, and pneumonia were 1 meaning these are not common as we have registered only 1 case.

Some of our children who visited hospital

Seruwu Bashir

Bashir aged 6 ½ years old was playing with others and broke his left leg (upper thigh bone). He was taken to Bombo Barracks Hospital where he was put in X-ray which showed that the bone in his left thigh was broken into two pieces. We were referred to CORSU hospital Entebbe, where he was admitted for one week and operated. He was put a metal in his leg so that they help him to walk. We could not afford the cost of the operation until our partners Aunt Susan and Uncle Trent came on board to pay all the necessary treatment because the child was crying day and night passing through that pain. We would forever be grateful for their continuous support.

Bashir's treatment bill of $ 2000 was paid by our Partner Aunt Susan and Uncle Trent Dyer

Mukama Frank

He was examined at Entebbe children's surgical hospital and the doctor also discovered that he was in a good healthy condition.

Jeremiah Ddembe

He was also taken for medical review at Mulago Hospital heart institute because of the hole on his heart. Luckily, the doctor discovered that the hole is closing but it needs more time to heal. Jeremiah is in a good condition with a good appetite, he can crawl and sit.

Nsubuga Emmanuel

Emmanuel was taken to UPDF Medical Hospital –Bombo Barracks beacause he has fainted. He was diagnosed of A2/F Toddler, TR, Orphan with Resolving Bronehiolitis and Suspected Helminthiasis. Emmanuel was admitted for 1 week, later discharged with Ampiclox syrup, Brozedex & Albendazole tabs while a good condition.

Kabuye Fred

He was able to get a better treatment from UPDF Medical Hospital – Bombo Barracks. He had a breathing problem and heavy chest.

Maling Samuel Kwagala

Sam fell down from the bed while playing with other kids and got sustained injury to the lower limb. There is limb shortening with visible deformity on the knee. This was all discovered by doctors from Bombo Barracks Hospital.

PETH
Caring for the Future

The Outbreak of Measles in our children

On the 27/10/2024, through the senior Probation and Social welfare of Luweero District, we received a child who was abandoned at Kasana referral hospital. This child had measles and we didn't know because there were no signs yet. After two weeks, the signs were visible. That's why we took him to Bombo hospital where he was admitted for two weeks but it was too late for us. Most of the children were infected with measles already.

Most our children were admitted to People's Medical Clinic for two weeks when their conditions were not a good but we thank God that most of them recovered well.

Unfortunately, Suubi Enock was admitted to different hospitals without improvement and later died on 04/12/2024.

Staffing, Organization and Stakeholders

RECRUITMENT AND TRAINING

It takes considerable time and resources to recruit and train new employees. Yet, some work for short periods of time and quit due to low wages, not enough to support their families. It is also demanding to care for these children: for example, it is never easy to stay in the hospital with a sick child for more than a month, working 24hours a day without resting, which indeed few people can be committed to this job with little pay.

NEW STAFF AT PETH AND DEPARTURES

Since the year began, as PETH, we have recuited new staff. We also had some of our staff leave for other businesses and others left because they could not follow the organisation policies. Among our new stuff we have: Ssematte Tom, Nampijja Irene, Nomugabe Micheal, Mugarura Ashiraf & our project Manager Nathan Rwothomio.

PETH News

TRAINING WITH NGO BOARD

Our NGO board Luweeero district normally has quartely meeting for Ngos for training them about government policies and how to start difffernet projects. As PETH team, we always attend and acquire new knowledge from different organisations. We normally also attend SACHA NMC trainings.

THE TRANSFER OF PHILLIP TUSIIME

He was transferred to Mukisa Foundation for disability children Nansana Municipality-Wakiso district on the 12/8/2024 through Gomba probation officer for more services for disability children since our children's home would not provide for his needs.

GOOD HARVESTS - FARMING PROJECT

Our farming project aims to produce some food to supplement the food budget for items such as rice that we do not grow. A lot of efforts have been put into clearing the farm, planting crops and weeding. This has resulted in good harvests. The types of food grown include beans, matooke, cassava, vegetables (greens) and sweet potatoes.

We cannot grow a lot of vegetables, food and cows grass since we lack enough land to do all that. In near future we will need to acquire a big piece of land in order to do all that.

VOLUNTEERS

Without the presence and service of volunteers, PETH would experience a huge void. Volunteers helped in various ways; they provided material support to the children, raised funds for PETH's work, and cared for the emotional needs of these children. Many things at PETH would have gone undetected by management, but with the presence of volunteers, management could learn many things that help with decision-making. In short, volunteers served as a sharp eye for PETH management. We managed to get some volunteers to help in many ways. They were involved in a number of children's activities and made sure that the children's well-being was taken into account.

Aunt SANDRA & Aunt AMANDA

We are so grateful for Aunt Sandra and Aunt Amanda who took their time and came to volunteer with us from 25th March to 9th April 2024. We are so humbled with the hard work and commitment they had in dressing children early morning, feeding children and playing with children.

They donated a lot of things to the children which includes school uniforms, school learning materials, food stuffs, clothes below are some of the photos.

BINGWA

PETH
PETH

Visitors from woodhill church Scotland & Rock Ministries church – Kibanga

VISITORS

In 2024, we registered several visitors, and we are grateful for sparing time for PETH.

VISITORS FROM WOODHILL CHURCH SCOTTLAND TOGETHER WITH ROCK MINISTRIES CHURCH – KIBANGA

They kindly visited for one evening, played and sang, brought food, formula, milk, clothes, small bicycles and dolls for children. They also donated 400,000 UGX for food. This was a great oppertunty for the children to spend time doing something different from the usual routine. Even a day you spend with a child here at PETH makes a huge diffference in their lives.

Uncle OSCAR

Uncle Oscar visited for one day in March 2024. He helped the children in class and played with them. The children got a good time with him - especially in class. This was a great opportunity and we really appreciated it.

Aunt KONTOVA CHRISTINE

We also want to appreciate Aunt Kontova Christine, one of adoptive parent from Greece, who visited on 25th of March. She came together with Abigail, the child she adopted from PETH. Children were so execited because Abigail brought them biscuits& sweets.

RACHEAL & MATHEW Hansen VISIT

We want to appreciate one of our adoptive parents Rachel and Mathew Hansen who adopted one our children Alvin Hansen. They came all the way from U.S.A and visited us on 18th July 2024. The children had an amazing time with them. The visitors helped by feeding children, hanging and organizing the children's clothes that day.

THE VISITOF Gayaza high school

On september 13th, some students and teachers from Gayaza High School paid a special visit to Peace Transitional Home, where they received a tour through our house and garden. A lot of kind students gathered and donated essential items for our daily needs. Thanks to their heartfelt contributions, special treat for both the children and the PETH team were the delicious lollipops gifted to everyone during the visit. We are deeply grateful for your kindness and won't forget it.

DONATION BY FARMACEUTICOS CANARIES SOLIDARIOS COMPANY FROM SPAIN

We wish to express our deepest gratitude for your generosity. Your donation of essential medicines has made a profound difference in the lives of the children.
Health is never something to be taken for granted—especially for children who have already faced many challenges at a young age. Thanks to your kindness, we have been able to provide relief and care whenever illnesses such as coughs, colds, and infections arose. Your support has not only helped heal their bodies but has also brought them comfort, security and the reassurance that there are people in the world who truly care about them.

From all of us at Peace Transitional Home, we extend our deepest thanks for your invaluable support. Your generosity is truly appreciated and will never be taken for granted. May you be blessed for the love and care you have shared.

DONATION BY FARMACEUTICOS CANARIES SOLIDARIOS COMPANY FROM SPAIN

We are deeploy grateful for the donation of$ 1090 building part of our fence.

New volunteers
AUNT SALLY & AUNT IDA

At the beginning of August 2024 and September2024, we received our two volunteers from Germany who are going to stay with us for a full year.

Christmas Party Celebrations

Thanks to our generous donors, we were able to raise some money and organise a Christmas party for more than 200 children. We had anticipated 200 children but we got over 300 children and 50 adults. Without your support, these children would not have had the chance to happily celebrate like that. Thanks so much for creating a smile to these wonderful children!

PETH

Caring for the Future

Life Church USA
OUR BIGGEST DONORS IN 2024

"Whoever is kind to the poor lends to the Lord, and he will reward them for what they have done."

We extend our heartfelt gratitude to *Life Church USA,* for your generous donation of food for a full year to support PETH. Your unwavering kindness and commitment have provided nourishment and hope to the children, making a significant impact on their lives.

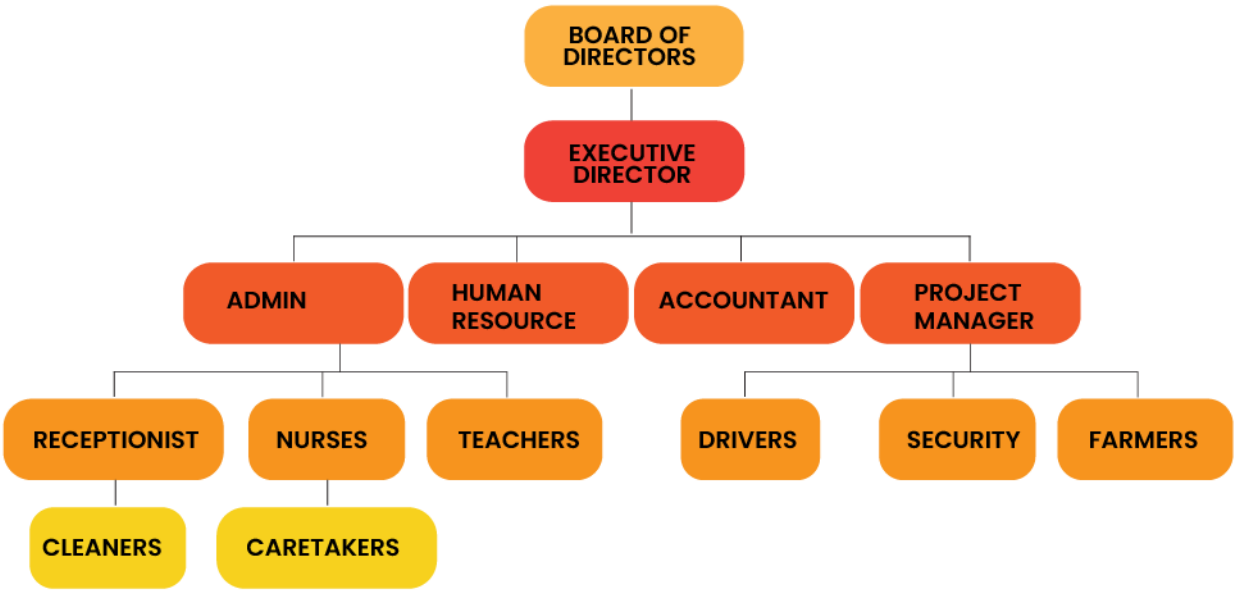

Your generosity is a true reflection of God's love in action, and we are deeply moved by your selfless giving. Because of your support, these children have not only received essential meals but have also experienced the warmth and care of a loving community.

As it is written in Proverbs 19; 17, ***"Whoever is kind to the poor lends to the lord, and he will reward them for what they have done."***

FINANCE AND ADMINISTRATION

Organizational Structure

PTH is built on a hierarchical structure when it comes to duty execution and reporting just as illustrated in the figure below;

Sources of Funding

The total funding for the year 2024 amounted to UGX. 151,322,610. As in previous years, the majority (80%) of our funding came from our partners, individual donors, and churches. In the second quarter, we were grateful to start receiving support from Life Church – U.S.A, which has been a tremendous help in meeting the needs of the children.

The majority of these funds have been allocated to feeding expenses and general operational costs.

We sincerely appreciate all our supporters for making a difference in the lives of the children at PETH!

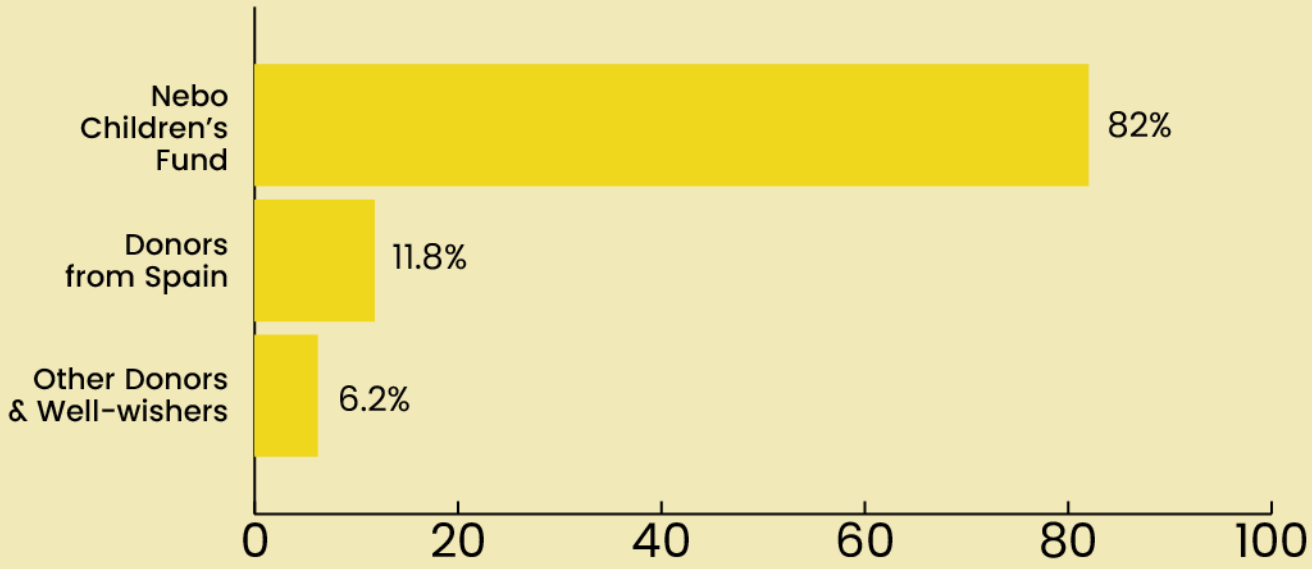

Finances

Sources of our funds 2024

S/No.	Source of Income	Contribution (UGX)	Contribution (%)
1	Nebo Children's fund	124,098,680	82
2	Donors from Spain	17,805,446	11.8
3	Other Donors & Well-Wishers	9,418,474	6.2
	Total Amount	151,322,610	100

In the year 2024, we had majorly two sources of funds and some other funds also came from friends, family and well-wishers which we defined as Other sources of funds contributing UGX. 151,322,610 with Nebo Children's fund taking the largest part of the year 2024 cash donation collections (82%), followed by donations from Spain headed by Ms. Sandra (11.8%) and other sources amounting to 6.2% of the annual cash donation collections.

Contribution(%) by different sources of funds.

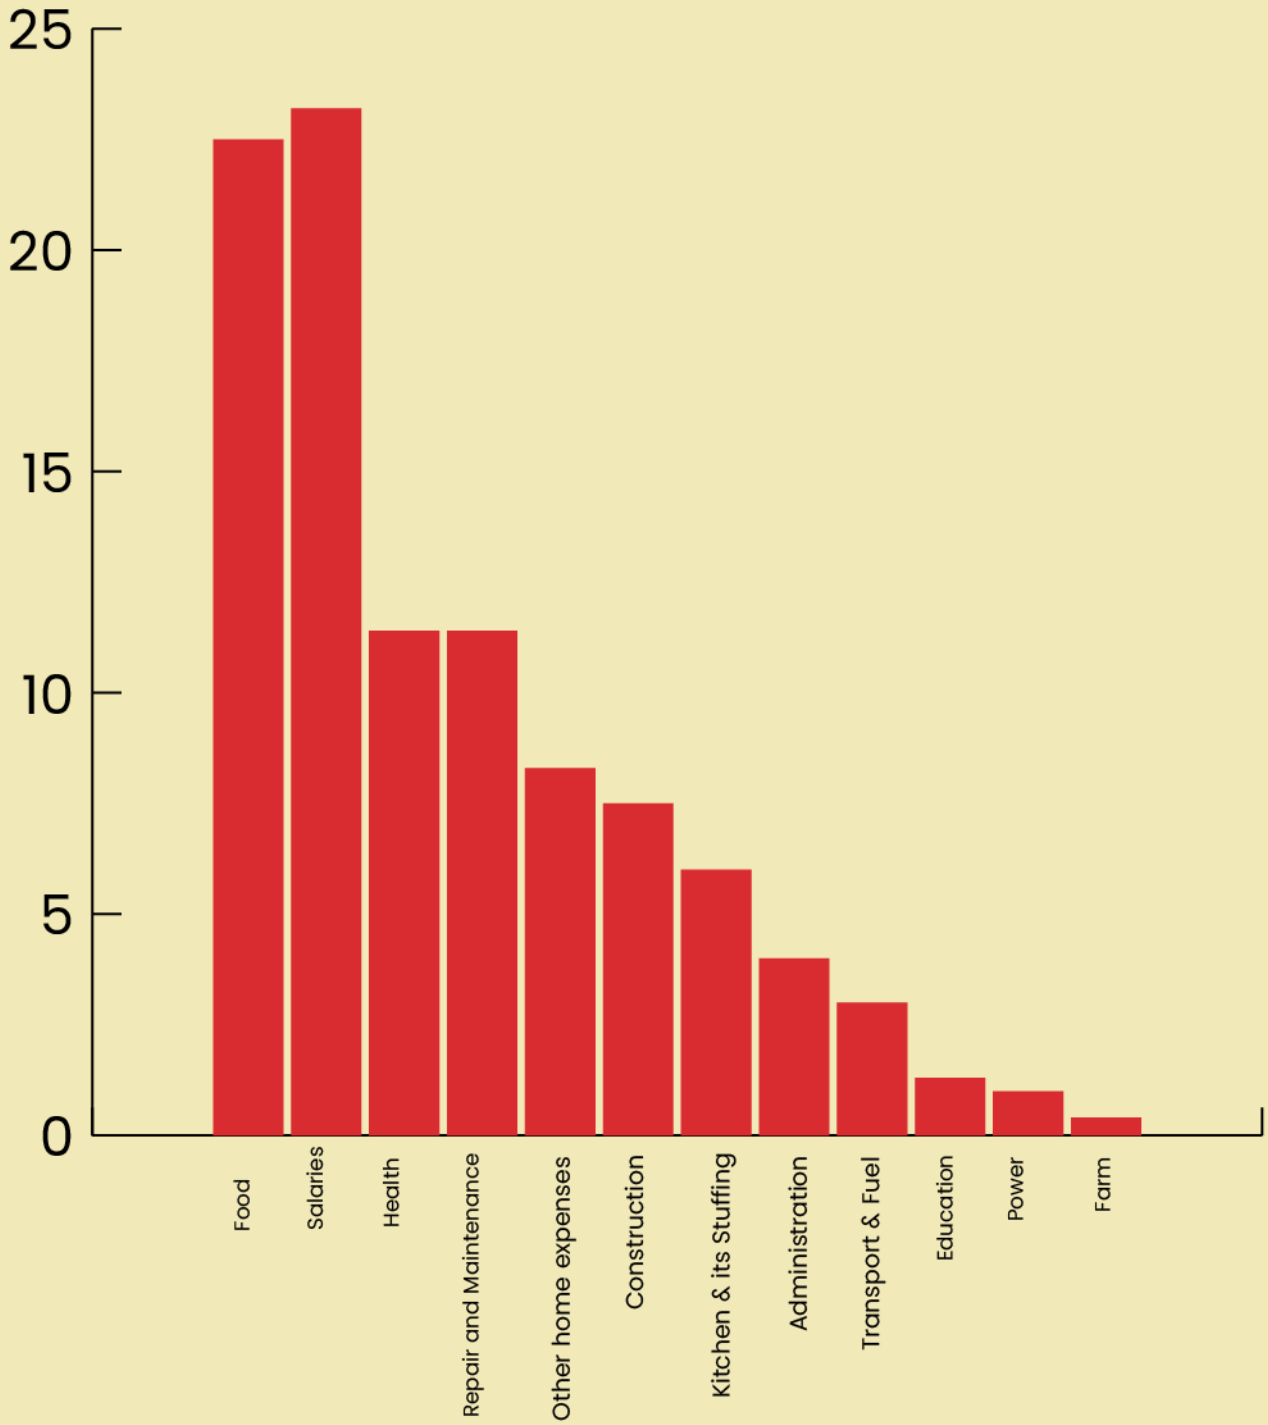

Expenditures

As always, the majority of our budget was allocated to feeding expenses, ensuring that the children under our care receive proper nutrition. Other key expenditures included staff salaries, follow-ups, and direct child-related expenses, which remain our top priority. Our goal is to make sure that most of the funding directly benefits the vulnerable children we serve.

S/No.	Expenditure items	Contribution (UGX)	Contribution (%)
1	Food	34,093,338	22.5
2	Salaries	35,156,474	23.2
3	Health	17,190,650	11.4
4	Education	1,935,987	1.3
5	Construction	11,459,500	7.5
6	Transport & Fuel	4,295,795	3
7	Power	1,407,600	1
8	Farm	618,000	0.4
9	Repair & Maintenance	17,219,936	11.4
10	Kitchen & its Stuffing	9,420,000	6
11	Administration	5,905,720	4
12	Other home expenses	12,619,610	8.3
	Total Amount	151,322,610	100

The above expenditure table illustrates that feeding and salary take the largest percentage of our expenditures amounting to 45.7% of Annual expenditure; this is due to the highest demand of children's feeding on balanced for the betterment of their health and upbringing. Followed by Health and Home maintenance & repairs which take 22.8% of our annual expenditure and the rest of the expenditure take 31.5%.

EXpenditures by Percentage (%)

ADVOCACY AND CAPACITY BUILDING

Fundraising

In the year 2024, fund raising was done both countrywide and internally. All thanks to Madam Sandra for spearheading the activity, through sending emails, letters and making calls for help to family, friends and well-wishers of PETH. We must say, the fundraising impacted a lot in our daily expenditures and some of our projects such farming, school and above all, children's education and feeding. Out of that the children's growth and health has greatly improved.

Community sensitization

Community awareness campaigns were conducted informally, this was due to insufficient funding that could not allow us organize formal campaigns. These activities were conducted both at our premises and outside in the community, at our premises we organized an x-mass party where through that, we were in position of communicating to parents, guardians and different stakeholders and reminding them about child care, protection while advocating for the children's rights.

Collaborations

PETH collaborated in Fundraising Training at Another Hope Home, celebration of international women's day with the community. In addition, we received leaders from Kalagala subcounty for inspection, probation officer Luwero District. These collaborations were significant I our career builds towards children's care and help.

Trainings

In 2024, PETH carried out and sent some of its employees for trainings. Within the organization, we carried out child care and protection, this was meant for care mothers who were thought on how to deal with children and provide the best environment to them. Employees were also sent for outside Trainings especially those that are in the management and administration, on fundraising Training, donor relation, funds management and leadership. The trainings carried out has greatly empowered the employees capacities and improved skills, for the betterment of the Home uplifting and child's care.

SUCCESSES, CHALLENGES, RECOMMENDATIONS, LESSONS LEARNT & CONCLUSION

SUCCESSES

- Children were re-united with their families.
- Decrease in the costs of milk because our cow gives us milk
- Part of our fence was plastered.
- Trenching part of our road with stones from the main road which has reduced soil erosion.
- Paving in front of the main house which has reduced mud during rainy season and flooding of water.
- We received 2 volunteers.

CHALLENGES

- We have been faced with school fee issue.
- The number of children in need of support increases. Yet, we don't have enough resources in terms of staff and finances to care for them.
- Tracing for families of missing or abandoned children was nearly impossible. Costs involved were way too high, so the organization couldn't handle them.
- Parents/guardians did not attend meetings organized by PETH. They missed out on important communications which results in miscommunication.
- Transporting children to the hospital is also a major problem since we don't have full time car at the organization. That way, it is risky to reach the hospital, especially at night.

RECOMMENDATIONS

- It should be emphasized to parent / guardians to make sure they are engaged in the lives of their children. The organization comes in as a secondary helper when they have failed.
- For every child referred by the police station, a copy of the statement for our follow-up on the children, especially the stranded and missing. This would ease on the delays that we face because of the scanty information provided to us.
- Fundraising for the tracing of the children.
- Working on the training of PETH staff in order to do quality work.

LESSONS LEARNT

- Keeping more children in families.
- Workings with government officials to force parents play their roles.
- Training parents in parenting skills which will reduce the number of children that end up missing.

FUTURE PROJECTS 2025

- Construction of a good nursery school
- Expansion of the children's home
- Sustainable income generating project

CONCLUSION AND APPRECIATION

PETH continue to positively change the lives of the neediest children as they get access to education, health and more. The increase in beneficiaries (number) is an indication of the vital roles that the organization is extending to vulnerable children in the community.

In 2025, PETH will mainly focus on collaboration with the stakeholders to improve the quality of services provided by the projects. Therefore, PETH would like to extend its sincere appreciation to all those who contributed to the achievements realized during this year. Special recognition goes to our partners Uncle Trent and Aunt Susan Dyer, Life church, Aunt Sandra Hernandez
Perez and all our monthly donors Martha Waller, Sara Kennedy, Cheryl Lacy, Christina Anderson, Sherri Doebler, Rose Kaddu, Kristina Carlson to mention but a few.

We greatly appreciate the support provided to PETH without your support PETH will not be able to go on. You're the fuel to our engine.

APPENDICES
